

High Brightness Outdoor Light-emitting Diode Display Energy-saving Design

Our Product Introduction

for more products please visit us on hdled-display.com

Basic Information

- Place of Origin: China
- Brand Name: Vegoo
- Certification: CE/ROHS/FCC/
- Model Number: VG-FD P10
- Minimum Order Quantity: 1 Square meter
- Price: Negotiable
- Packaging Details: Plywood case / Flight case / Carton box
- Delivery Time: 15-25days
- Payment Terms: T/T
- Supply Ability: 8000sqm per month

Product Specification

- Features: 1. High Brightness Display. 2. Diverse Color Options. 3. Lightweight Aluminum Panel. 4. Energy-saving Maintenance Design.
- Viewing Angle: H:120° ;V:120°
- Average Power Consumption: 220 W/Sqm
- Input Voltage: AC110-220V±10%
- Brightness Of White Balance: 6000cd/m2
- Advantages: 1. The Image Is Realistic. 2. Good Product Performance - Strong Environmental Adaptability. 3. Diversified Advertising Forms - Interactive Experiential Communication. 4. Flexible Operation - Convenient Content Updates. 5. Easy To Maintain.

Product Description:

The product has an input voltage of AC110-220V±10% which makes it extremely versatile and suitable for use in a wide range of settings. The LED Package Mode is SMD 3IN1-1415 which ensures that the product is highly durable and long-lasting. The unit module makes it easy to assemble and install, and the display parameters are designed to provide clear and sharp images even in bright sunlight. The viewing angle of the product is H:120° ;V:120° which ensures that the display can be viewed from a wide range of angles. This is particularly important for outdoor displays where visibility can be affected by the position of the sun and other environmental factors. The driver IC used in the product is ICN2153 which is known for its reliability and high-performance. This ensures that the product is highly efficient and can operate smoothly even in challenging conditions. Overall, our Open-air LED Display Panel is a top-quality product that is designed to meet the needs of customers who require a high-performance Outdoor Illumination Diode Display. With its advanced features and robust design, this product is sure to provide a superior viewing experience and deliver excellent value for money.

Features:

- Product Name: Outdoor LED Display
- Product Category: Exterior LED Display Monitor
- LED Package Mode: SMD 3IN1-1415
- Input Voltage: AC110-220V±10%
- Cabinet Size: 576mmx576mm
- Pixel Pitch: P3
- Perfect for: Outside LED Video Wall
- Can be used as: External LED Screen

Technical Parameters:

Advantages	Technical Parameters
The image is realistic.	Product Name: Energy-Saving Maintenance Design for Ares Outdoor P3 LED Display with High Brightness
Good product performance - strong environmental adaptability.	Product Category: Outdoor LED Display
Diversified advertising forms - interactive experiential communication.	LED Package Mode: SMD 3IN1-1415
Flexible operation - convenient content updates.	Driver IC: ICN2153
Easy to maintain.	Distance Recommended Viewing: 3m-50m Average Power Consumption: 220 W/Sqm
Features	
High brightness display.	Unit Module
Diverse color options.	Display Parameters
Lightweight aluminum panel.	Input Voltage: AC110-220V±10%
Energy-saving maintenance design.	

Applications:

Vegoo VG-FD P10 is an incredible Outdoor Illumination Diode Display which is designed to cater to all your outdoor digital signage needs. This Exterior LED Display Monitor is perfect for displaying your advertising messages, promotional videos, and live feeds in a bright and vibrant manner, even in direct sunlight. The Outside LED Video Wall is a robust and durable product that is ideal to be used in a range of outdoor scenarios. The Vegoo VG-FD P10 has a viewing angle of H:120° and V:120°, which makes it highly suitable for displaying your content to a large audience. The display is equipped with a driver IC ICN2153, which ensures that the display is able to produce crystal clear images and videos. The brightness of the white balance of the display is 6000cd/m2, which ensures that your content is visible even in direct sunlight. This product is certified with CE/ROHS/FCC and has been manufactured in China with a supply ability of 3000Sq.m. The delivery time for this product is 3-5 working days, and it can be packed in a plywood case, flight case, or carton box according to your preference. The Vegoo VG-FD P10 is designed to be used in a range of application occasions and scenarios. It is perfect for use in outdoor advertising, such as in shopping malls, stadiums, airports, and other public spaces. It can be used to display your promotional messages, live feeds, and other information in a bright and engaging manner. It is also suitable for use in events, such as concerts, festivals, and exhibitions, where it can provide a stunning visual display for your audience. In conclusion, the Vegoo VG-FD P10 is a top-of-the-line Outdoor Illumination Diode Display that can meet all your outdoor digital signage needs. With its robust and durable design, crystal clear display quality, and versatile application scenarios, it is the perfect product for all your outdoor advertising and event needs.

Support and Services:

The Outdoor LED Display product comes with comprehensive technical support and services to ensure optimal performance and longevity. Our team of experienced technicians is available to assist with any technical issues that may arise, including troubleshooting, repairs, and maintenance. We also offer installation services to ensure that the display is properly installed and configured to meet your specific requirements. In addition, we provide training and education to help you maximize the potential of your display and stay up-to-date with the latest technologies and features. Our goal is to provide you with the highest level of support and service, so you can enjoy the benefits of your Outdoor LED Display for years to come.

Packing and Shipping:

Product Packaging:

- 1 Outdoor LED Display
- 1 Set of Mounting Brackets
- 1 Power Cable
- 1 User Manual

Shipping Information:

- Shipping Method: Ground
- Shipping Weight: 150 lbs
- Shipping Dimensions: 96" x 48" x 10"
- Shipping Destination: United States
- Expected Delivery Time: 5-7 business days

FAQ:

Q: What is the brand name of the outdoor LED display?

A: The brand name of the outdoor LED display is Vegoo.

Q: What is the model number of the outdoor LED display?

A: The model number of the outdoor LED display is VG-FD P10.

Q: What certifications does the outdoor LED display have?

A: The outdoor LED display has CE/ROHS/FCC certifications.

Q: Where is the outdoor LED display made?

A: The outdoor LED display is made in China.

Q: What is the supply ability and delivery time for the outdoor LED display?

A: The supply ability for the outdoor LED display is 3000Sq.m and the delivery time is 3-5 days.

Q: What are the packaging details for the outdoor LED display?

A: The packaging details for the outdoor LED display are plywood case, flight case, or carton box.
