Basic Information

- Place of Origin: China
- Brand Name: Vegoo
- Certification: CE/ROHS/FCC/
- Model Number: VG-SD P5
- Minimum Order Quantity: 1 pcs
- Packaging Details: Plywood case / Flight case / Carton box
- Delivery Time: 10 days

Product Specification

- Pixel Pitch: 3mm-5mm
- Product Name: IP65 Waterproof And Intelligent Lighting Control Pole LED Display For Traffic Guidance
- Best View Distance: 3-50m
- Control Manner: Asynchronous(4G Module)
- Life Span: 100000hours
- Weight: 0.35kg
- Remote Control: Yes
- Waterproof Rate: IP65
- Highlight: **Auto Switch Power Supply LED Display ,
IP65 Waterproof LED Display ,
10mm Thickness Waterproof LED Display**

Product Description:

The Pole LED Panel is designed to be highly visible, even in bright daylight, ensuring that traffic information is easily readable by all road users. The module size of 192mm*192mm is perfect for displaying clear, concise information, while the asynchronous (4G Module) control manner ensures that the display is always up-to-date and accurate.

One of the key features of the Pole LED Display is its waterproof LED lighting, which allows it to operate in any weather condition. This makes it the ideal solution for outdoor use, as it can withstand rain, snow, and other harsh weather conditions without any damage to its components.

The Pole LED Panel is also designed to operate on Windows7 and above, making it easy to integrate into existing traffic management systems. This ensures that traffic information is always up-to-date and accurate, helping to reduce congestion and improve overall traffic flow.

The Pole LED Display is powered by an auto switch power supply, which ensures that it is always operational, even in the event of a power outage. This ensures that critical traffic information is always available, even in emergency situations.

In summary, the IP65 Waterproof and Intelligent Lighting Control Pole LED Display for Traffic Guidance is a must-have product for any modern traffic management system. Its highly visible display, waterproof LED lighting, and reliable power supply make it the perfect solution for displaying critical traffic information in any weather condition.

Features:

Product Name: IP65 Waterproof and Intelligent Lighting Control Pole LED Display for Traffic Guidance

LED Package: SMD 1921

Remote Control: Yes

Weight: 0.35kg

Product Category: Pole LED Display

Features of the Pole Billboard LED:

Waterproof LED screen

Pole LED Panel

Technical Parameters:

Product Name	IP65 Waterproof and Intelligent Lighting Control Pole LED Display for Traffic Guidance
Product Category	Pole LED Display
Pole LED Advertising Display	Yes
Pole LED Message Board	No
Module Size	192mm*192mm
LED Package	SMD 1921
Weight	0.35kg
Power Supply	Auto Switch
Platform	Windows7 And Above
Control Manner	Asynchronous(4G Module)
Modular Self-check	Yes
Remote Control	Yes

Applications:

The Vegoo VG-SD P5 Pole LED Display is a waterproof LED lighting product that comes with intelligent lighting control. It is designed to be used in various traffic guidance scenarios such as highways, parking lots, and intersections. The product is IP65 waterproof, which makes it suitable for outdoor use in different weather conditions.

The Pole LED Advertising Display is an ideal product for displaying advertisements and other information in public spaces. The product is controlled asynchronously using a 4G module, which enables it to display information in real-time. The module size for this product is 192mm*192mm, which ensures high-quality display and clarity.

The remote control feature of the Pole LED Advertising Board allows the user to operate the product from a distance. This feature comes in handy when the product is installed in hard-to-reach places. The Vegoo VG-SD P5 Pole LED Display is designed to meet the specific needs of traffic guidance scenarios and is an ideal product for this application.

The Vegoo VG-SD P5 Pole LED Display is suitable for use in various occasions and scenarios. It can be used in highways, parking lots, intersections, and other public spaces. The product is designed to withstand different weather conditions and is ideal for outdoor use. The Pole LED Advertising Display is an efficient way to display advertisements and information in public spaces.

Support and Services:

Our Pole LED Display product comes with comprehensive technical support and services to ensure that you get the best possible performance out of your investment. Our team of experienced technicians is always available to provide assistance with any issues you may encounter during installation or operation of the display. We offer remote support services as well as on-site support to ensure that you receive the help you need in a timely manner.

In addition to technical support, we also offer maintenance and repair services to keep your Pole LED Display in top working condition. Our maintenance services include regular cleaning and inspection of the display to ensure that it continues to function properly. We also offer repair services for any physical damage that may occur to the display, as well as replacement parts as needed.

Our goal is to provide you with the best possible experience with our Pole LED Display product. If you have any questions or concerns, please do not hesitate to contact us for assistance.
